The girl, discovering the deception, made a fuss. Keene's father forced him to do her justice, and after their legal marriage and the birth of a child she took her own life because of his ill-treatment. The child, a bouncing boy, lived, was brought up by his father's people, married and a boy was born to him, and this last boy was Walter Bullock Keene, the hero of this domestic drama. His aunt was a member of the wealthy Bullock family, of Rhode Island, and she held for him a large sum of money which fell to Walter when he became of age, and it is now more than doubled by the investment in profitable property for a long term of years. The aunt in her own name owned a half dozen cottages at Riverside, the shore recort a few miles below this city, and there she requested Walter to come for his vacation when he should come from school.

Then the aunt took the youth to New York and they visited the Bellevie Medical School and arrangements were made for his tuntion. A suitable boarding place was looked for, and finally Aunt Bullock placed her address upon the list and Walter was taken to the house of Mrs. Georgiana A. Hunter, whose house was reported a good one and very respectable.

Then, with all arrangements made satisfac-

Frovidence and left the youth to secure his medical educatian.
Young Keene suffered from sickness, a sort of malaria, in the latter part of the winter and was attended by his boarding-house mistress. Who very attentively nursed him.
When Keene had recovered, he proposed marriage to Mrs. Hunter, a strong attachment having sprung up between them. She finally assented and went to Brooklyn, where the ceremony was performed very quielly.

When the summer vacation came around Walter returned to Providence to visit his aunt at Riverside. Mrs. Hunter soon followed and with her the five children and the luggage of her household. They all went to Riverside. and as Aunt Bullock's cottage was too small a cottage owned by her directly opposite was taken by Mrs. Hunter. He passed the time with her. and the entire party spent the days on water and land together.

Keene's stepfather, a well-known officer in the town of Lincoln, became curious, and looked into the matter. He never suspected the couple were married, but he questioned Walter closely about his relations to Mrs. Hunter. When the summer vacation came around

family and immediately efforts were made to separate the couple.

After a week's time Keene came to the conclusion that he had better submit to a family rule and he decided upon a separation. The remembrance of a wife and five children upon a medical student was pictured to him and submission resulted. Mr. Keene disappeared, having departed in the night in company with a friend.

It is reported that there are only three persons who know where Keene is staying at present, but from a member of the family the secret is divulged that he has gone to Europe to another medical university.

Just before Keene's departure he gave a written notice to his aunt that he had no claim upon the house where he stopped with the Hunter family. This was secured by Aunt Bullock to prevent trouble after the boy's flight.

THE BOARD OF HEALTH'S PRECAUTION.

It was stated in the Health Department this morning that during the past two or three weeks every death certificate giving fever as a cause of death has been referred to Dr. Edson for examination, special attention being given to intermittent and remittent tevers, as they are characteristic of the yellow types.

An Evenino World reporter saw Dr. Smith at the Fort Wadsworth Quarantine Station this morning and interviewed him on what the commission was doing in regard to the yellow fever scars.

"Are any precautions taken with land passengers from the South that arrive in New York from the infected regions?" the reporter asked.

"There are no lines direct from the fever-stricked section to New York. The exceed-
